Valentines Day Party

On Wednesday, February 14, we will be celebrating Valentines Day by passing out Valentines and playing classroom games. Each child should bring a can or bottle of pop that day if they want to.

Here's a list of the students in our class this year: Nate Becker, Layla Betsinger, Faith Bridewell, Cash Fussy, William Hall, Henry Hoffman, Alisha Karst, Zaharra Lawrence, Isabelle Lehmeier, Brooke Marshik, Brayden Melby, Brady Meyer, Jacob Oldakowski, Bailey Przybilla, Shelby Pulak, Delilah Rocheleau, Hayden Sam, Sam Schyma, Bradley Tanner, Nathan Tax, Julia Vanden Avond, Lauren Vandenheuvel, Abbie Virnig, and Austin Waldvogel.

It was good to visit with you at Parent-Teacher Conferences this past week. We don't have much time left, and lots of things that we need to learn yet. Hoping to get it all done.

Have a great weekend!

Science

In science we're studying about our solar system and the stars as an introduction to astronomy. We've had some fascinating discussions ranging from the order of the planets to the size of the universe. This week we completed our Starlab unit. It was lots of fun. Be sure to test your child's knowledge about the circumpolar constellations, the phases of the moon, and the number of planets in our solar system.

"Let Your Hair Down Rapunzel" Musical

Make plans to come and see this year's elementary play tonight (Friday), February 9, at 7:00 pm. The whole family can enjoy it!
